

RUGGED RPS211D LAPTOP

Military-Grade Rugged Laptop

The **RPS211D** is a rugged MIL-Spec portable server built with a machined aircraft aluminum chassis for demanding military, aerospace, and industrial environments. Featuring an 11.6" full HD display with optically bonded anti-reflective glass, a waterproof membrane keyboard, sealed touchpad, and integrated CAC reader, the RPS211D is engineered for high shock, vibration, and temperature conditions.

Powered by the latest Intel® processors, the RPS211D supports high-capacity DDR4 memory and up to eight hot-swappable 2.5" SSDs with onboard RAID for secure, storage-intensive applications. With server-class performance in a rugged portable form factor, it is ideal for mission-critical deployments requiring durability, mobility, and reliable computing in the field.

- Application-specific design
- Tested to meet military standards
- Built in the USA
